

Innovating for Impact

3M Consumer Business Group

Our sustainability promises stand across science and society

At 3M, we strive to unlock the power of people, ideas and science to re-imagine what's possible. Our clear goals and ambitious long-term strategies are aimed to direct our efforts to areas where we can make a significant impact. Building our global capabilities and diverse technologies, we created our Strategic Sustainability Framework to focus on three priority areas that align with shared global needs.

All products that enter 3M's new product commercialization process must have a **Sustainability Value Commitment** demonstrating how they drive impact for the greater good.

Increasing our ambitions

3M has aligned its Strategic Sustainability Framework and goals with the UN Sustainable Development Goals to follow through on our ambition to improve lives.

In 2021, 3M announced it expects to invest approximately \$1 billion over 20 years to accelerate new environmental goals: achieve carbon neutrality, reduce water use at its facilities, return higher quality water to the environment after use in manufacturing operations and reduce dependence on virgin fossil-based plastic.

Science for Circular

Design solutions that do more with less material, advancing a global circular economy.

Science for Climate

Innovate to decarbonize industry, accelerate global climate solutions and improve our environmental footprint.

Science for Community

Create a more positive world through science and inspire people to join us.

Water Reduction^{1,2}

10% by 2022
20% by 2025
25% by 2030

Carbon Reduction^{1,3}

50% by 2030
80% by 2040
Carbon neutral by 2050

Water Quality¹

3M will install **state of the art technology by 2023**, and be fully operational by **2024**, to return **higher quality water to the environment** after use.

Plastic⁴

125M POUNDS

Reduce dependence on virgin fossil-based plastic by 125M pounds by 2025.

¹ 2019 is the baseline measurement year

² Expands our previous commitment, which is aimed to reduce water use by 10% between 2015 and 2025

³ Expands our 2025 goal to stay below 50% of our 2002 baseline, meaning 3M's 2030 Scope 1 and 2 emissions will now be reduced more than 85% from 2002 levels

⁴ Established in 2021 to drive trend and trajectory progress over time

Building sustainability into our 3M Consumer Brands

In the Consumer Business, 3M is working to make our products, manufacturing operations and packaging more sustainable. Here's how:

Office Products

Post-it® Super Sticky Recycled Notes

These notes are made with a plant-based adhesive (67% by weight) and paper that contains a minimum 30% post-consumer recycled content.

Scotch® Magic™ Greener Tapes

The adhesive in this product contains 66% plant-based material and tape made from 53% plant-based material. Its dispenser and core are made from 100% recycled plastic.

Scotch® Box Lock™ Packaging Tape

This tape is made to stick securely to all box types, including 100% recycled cardboard boxes. It is manufactured with a solvent-free adhesive in a zero-waste-to-landfill facility.

Post-it® Notes

All notes are recyclable and are made from either recycled paper or paper that comes from trees grown in sustainably-managed forests.

Post-it® Flex Write Surface

This product can transform work surfaces into a whiteboard. You can write on it with both permanent and dry erase markers, then clean with just water – No harsh chemicals are needed!

Scotch™ Cushion Lock™ Protective Wrap

This product is a sustainable alternative to plastic cushion wrap, made with 100% recycled paper, making it recyclable with standard paper.

Home Improvement Products

Filtrete™ Smart Air Purifiers

You can automatically adjust the fan speed based on air quality, so your device only runs at higher fan speeds when needed, saving energy.

Scotch-Mount™ Indoor Double-Sided Mounting Tape

This tape is formulated to adhere to modern paint chemistries while reducing solvent emissions during the manufacturing process.

ScotchBlue™ Original Painter's Tape #2090

This painter's tape uses solvent-free coatings to help reduce factory emissions.

Filtrete™ Basic and Clean-Living Air Filters

These metal-free filters help reduce landfill waste and allow for recycled content, without compromise to filtration performance.

Meguiar's® Ultimate Waterless Wash and Wax

This is a 'mist on, wipe off' car wash that eliminates the need for a hose or bucket. The innovative chemistry removes the need for water.

Home Care Products

Scotch-Brite® Greener Clean Scrub Sponges

These sponges are 100% made from plants and recycled content.

Scotch-Brite® Swift Scrub Bathroom Buildup Remover

This powerful scrubber outlasts 4 eraser pads¹, and works with just water or vinegar — no harsh chemicals needed.

Scotch-Brite® Advanced Scrub Dots Scrubbers

These advanced scrubbers resist odors, rinse clean and are made with 75% recycled content, giving America's #1 Sponge Brand 3X the scrubbing power².

3M™ Thinsulate™ 100% Recycled Featherless Insulation

This technology was designed by scientists to reuse recycled plastics and help reduce waste on the planet. It is 100% recycled featherless.

Consumer Health and Safety Products

3M™ Particulate Respirator 9513

This respirator can help reduce airborne particulate exposure when used as instructed. With a convenient and disposable design, it can be used in crowded places, airplanes and everyday moments to help filter airborne particles such as PM 2.5, smoke particles, airborne pollen and other allergens.

Nexcare™ Duo Fabric Bandages

These bandages are manufactured using a solvent-free adhesive that delivers an all-day hold and a pain-free removal.

Nexcare™ Max Hold Waterproof Bandages

These waterproof bandages use durable film to stay on for up to 48 hours of protection against dirt and germs.

¹ Compared to Mr. Clean Magic Eraser Extra Durable pads on tough soils

² Advanced Scrub Dots 2-packs compared to the leading temperature-reactive sponge in warm water based on lab developed studies measuring scouring ability after repeated use

Sustainable Packaging and Manufacturing

Improving the recyclability of our packaging is one way that 3M is working to advance a circular economy that designs out waste, keeps products and materials in use, and integrates more renewable raw materials. To support this initiative, the consumer business will transition to 100% recyclable or reusable consumer packaging by 2030, with an interim milestone of 80% by 2025.

Achieving Zero Landfill Status

After working to find outlets for numerous waste streams, the 3M Hutchinson, Minnesota Plant achieved this important status in 2020.

Removing Problematic Plastic

In the Consumer Business, we're working to make all of our packaging recyclable, removing plastics like PVC as part of these initial steps.

Putting Recycled Content to Good Use

Scotch-Brite® Advanced Scrub Dots Non-Scratch Scrubbers are made with 75% recycled material. Their packaging has 100% recycled content that is fully recyclable and non-plastic.

Recyclable Packaging

Scotch-Brite® Greener Clean Non-Scratch Scrubbers are made with 100% recycled content, with at least 75% post-consumer recycled PET (no glue or dyes). Their packaging is designed to be fully recyclable.

Member of How2Recycle®

This program was designed by GreenBlue's Sustainable Packaging Coalition to provide consumers with clear instructions for recycling packaging materials. This membership supports 3M's efforts to improve the Sustainability of our products and packaging.

Within the 3M Consumer Business, we continue to expand the use of How2Recycle® labels onto more packages every year.

Member of
How2Recycle

Social Impact

The 3M Consumer Business Group extends its sustainability efforts for greater social impact. Here's how:

Collaborative Support for Responsible Forestry

Since 2020, 3M has supported American Forest Foundation's Sustainable Forestry and African American Land Retention Program. Eight community-based organizations located across the southeastern US connect African American landowners to established networks of forestry support to increase income and resiliency by turning their family forests into sustainable economic and conservation assets.

How Scotch® Painter's Tape Helped Transform a Basketball Court to Inspire a Community

Scotch® Painter's Tape teamed up with Project Backboard, NBA star Taj Gibson and artist Steph Costello to upcycle run-down basketball courts and provide a vibrant and welcoming gathering space for local community members.

3M Consumer Business and Habitat for Humanity

To drive greater equity in our communities, 3M has set new equity-related commitments within each of our business groups.

As part of its focus on addressing the homeownership gap, the 3M Consumer Business Group will partner with organizations like **Habitat for Humanity** to help remove barriers that could prevent underrepresented groups from entering the homeownership pipeline. As part of this collaboration, 3M is also leading meaningful product innovation that helps make a house a home.
